Brucs

Identity

Brucs was born in 1991 and started with a single basic concept; understand decoration as a unique way of transmitting feelings.

Brucs aim; to create moods from the composition of unique and exclusive environments.

Only with a thoughtful analysis of each of its collections, Brucs has developed a simple but ingenious concept.

The recovery of furniture and objects of the past, handmade, adapted to current needs, using the noble materials as always, irons and woods, in many cases even recycled, obtaining objects that seem to have always existed and that can last over time, passing from generation to generation, trying to get collections to the latest and current in a timeless way.

About us

Brucs specialises in the design and production of complete collections for interior design, aimed at B2B transactions – including furniture and customized upholstery products, home-accessories, and lighting, as mainstays.

In the Contract area, the department carries out comprehensive projects and customized solutions, depending on the needs of each project. A full “made to measure”. This service is aimed to hotels, restaurants, architects, decorating project managers and design studios. Also providing service to retailers worldwide with all the product range.

We constantly strive to take our business to the next level and to the last. Over the years, the team has studied all the details of design and production of interior products, always respecting the unmistakable style of the brand.

For this, Brucs has developed a network of suppliers around the world, currently more than 500 contacts, enabling us to obtain the most complete collections with the best quality possible.

Also counting with the widest collections of fabrics from the best textile publishers of the moment, to be able to offer all the different models of upholstered furniture with the most varied range of colours, prints and textures.
